completely revised version of the original 1885 edition if we take a journey down the chesapeake bay by night we shall see the light exhibited at sharpe s island for an hour before the steamer gets to it we may take up a position on the deck so that the rail of the vessel s side will be in a line with the light and in the line of sight and we shall find that in the whole journey the light won t vary in the slightest degree in its apparent elevation but say that a distance of thirteen miles has been traversed the astronomers theory of curvature demands a difference one way or the other in the apparent elevation of the light of 112 feet 8 inches since however there is not a difference of 100 hair s breadths we have a plain proof that the water of the chesapeake bay is not curved which is a proof that the earth is not a globe
